Technical Skills

Frontend: HTML5, CSS, jQuery, JavaScript, Bootstrap, Tailwind CSS, and React

Backend: MySQL, Sequelize, MongoDB, Mongoose, Express, Node, Handlebars, Webpack, GraphQL, and Apollo Server

Projects

InfoShare| Repo | Deployed   Sole Developer

- A blogging platform where users can read and post articles.
- Users can post and edit articles, as well as search for articles by tag or title and comment or like/dislike articles that they are interested in. They also have a individually curated home page on which they can find the latest articles posted by authors they follow, or which include tags they have added to their list of interests.
- Tools/Languages: React, Tailwind CSS, GraphQL, Apollo Server, MongoDB and Mongoose

Bookworms | Repo | Deployed   Group Lead

- A book club application where users can search for books and make clubs
- Using the Google Books API, users can search for a book and then either create a new club or join an existing one. Club members can access meeting dates and addresses/video call links as well as participate in a group discussion about the book.
- Tools/Languages: React, Tailwind CSS, GraphQL, Apollo Server, MongoDB/Mongoose, Node and Express

Ranter | Repo | Deployed   Group Lead

- A social media application modeled off Twitter
- Users can post "rants", comment and like on rants of others, search for and follow other users, and update their profile with a bio. My responsibilities included writing RESTful API routes, Sequelize models, and frontend components as well as assigning feature tasks and leading team code reviews.
- Tools/Languages: Bootstrap, MySQL, Sequelize, NodeJS & ExpressJS, Handlebars.js

Work Experience

Canadian Armed Forces | Infantry Soldier   March 2016 - Present

- Effectively works as part of a team, receiving and giving instructions in order to accomplish mission tasks.
- Communicates with team members both orally and through email to ensure accurate and timely transmission of information.
- Participates in diversity training, workplace behavior workshops, public relations training, and mental resiliency training.
- Maintains a high level of physical fitness.

Education
